## CURRICULUM AT A GLANCE

### Foundation's Basic Goals and Values

#### READING

3 year olds: Our reading program is phonics-based. The students are taught all of the letters of the alphabet and the phonetic sounds that those letters represent. 4 year olds: Besides learning the letters and phonetic sounds, we also teach the students how to read short words and sentences. We begin reading groups in the spring.

#### ARITHMETIC

3 year olds: We teach number recognition and counting for the numbers 1-15 at a minimum. Some students learn to count to 50 and beyond. We also teach basic shapes, sorting, colors and the calendar. 4 year olds: Learn number recognition and counting for numbers 1-50 at a minimum. Some students count to 100 and beyond. We also continue to teach basic shapes, sorting, etc.

#### BIBLE

We teach 20 minute Bible lessons each day. Lessons focus on the major Bible characters and stories, such as Adam and Eve, Noah, Abraham, Isaac, Jacob, Moses, Daniel, the life of Christ, the Apostle Paul, etc. These are used to teach Christian principles to live by.

#### DEVELOPING CHARACTER

We are committed to developing godliness of character and action in the lives of the students entrusted to our care. We teach and encourage students to practice honesty, kindness, thankfulness, obedience, cooperation, patience, attentiveness, and respect.
